---

### 1. PROJECT OVERVIEW

Mehmoodah Academy School Operating System is a modern internal school platform designed to simplify administration, academics, attendance, and communication.

This product must feel:

Professional

Calm

Simple

Modern

Trustworthy

Avoid traditional school ERP appearance.

Target Experience: "Opening the system should feel like using Notion, Linear, Stripe Dashboard, or a modern SaaS product."

---

### 2. DESIGN PRINCIPLES

1. Simple First No clutter.
  2. Fast Actions Users should finish tasks in minimum clicks.
  3. Readability Large text and clear hierarchy.
  4. Consistency All pages must feel connected.
  5. Mobile Friendly Works well on laptops and phones.
